

# **BUILD THE FUTURE OF SUSTAINABLE FOOD FOR 10BN**

**AT TEORA,**

We replace harmful chemicals in aquaculture and agriculture with natural, sustainable and healthy biologics which are effectively delivered to prevent losses of multi billion \$ every year using cutting edge technology in synthetic biology, precision fermentation and material science.

## ShrimpGuard™ Series

### ONE-STOP SOLUTION FOR SHRIMP VIRAL DISEASES

#### Mechanism of action :

Our innovative solution combines **Nano Peptides** and **RNA interference (RNAi) technology** for a proactive approach to viral disease management.

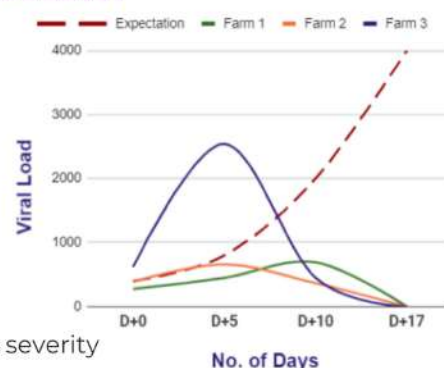

#### Impact for Farmers :

- Enhanced Protection against virus
- Reduced Shrimp Mortality due to viral diseases
- Increased yield & production efficiency

#### Application Guidelines :

- Use the product **2/3 days per week** as part of one morning meal based on disease severity
- Mix **10 grams** of ShrimpGuard for **every kilogram shrimp feed (1% inclusion)**

#### Results :

Product Line : **WSSV ShrimpGuard™** **IMNV ShrimpGuard™**

## Fish Jumbo™ Series

### FUELING FASTER, HEALTHIER FISH GROWTH

#### Mechanism of action :

Fish Jumbo is a cutting-edge growth enhancer that optimizes fish growth rates in aquaculture by reducing negative growth inhibitors and enhancing protein synthesis pathway.

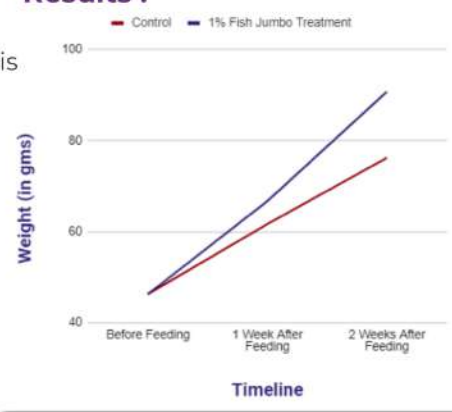

#### Impact for Farmers :

- Enhanced fish growth by approx. 20%
- Improved FCR by 0.2 to 0.5 at the farms
- Reduce culture timelines and reach target fillet size faster

#### Application Guidelines :

- Use the product **daily** as part of one morning meal
- Mix **10 grams** of Fish Jumbo for **every kilogram shrimp feed (1% inclusion)**

#### Results :

Product Line : **Sea Bass, Pangasius, Tilapia, Trout, Yellowtail, Salmon, Sea Bream**
